

What makes Andromeda's Web Ordering so good?

- Primarily, an Online Ordering Website from Andromeda is a site that is branded and marketed for YOU.
- It is a portal for your customers to connect to you and your menu, we don't use it to promote us featuring you.
- Customers on your website are your customers, so unlike other platforms, they are loyal to you and their data is yours, meaning we can assist you in connecting with and marketing offers to them
- No need to pay large commissions to a third party site, who only markets themselves

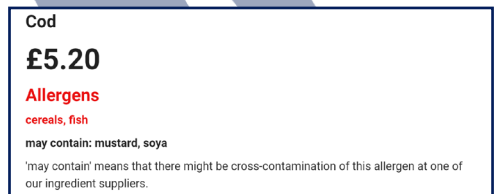

Enhanced menus with images and descriptions

- Unlike other sites Andromeda websites don't just have plain lists of items
- Describe your menu items to engage with your customers
- Studies show sites which have product photos receive on average 20% more orders

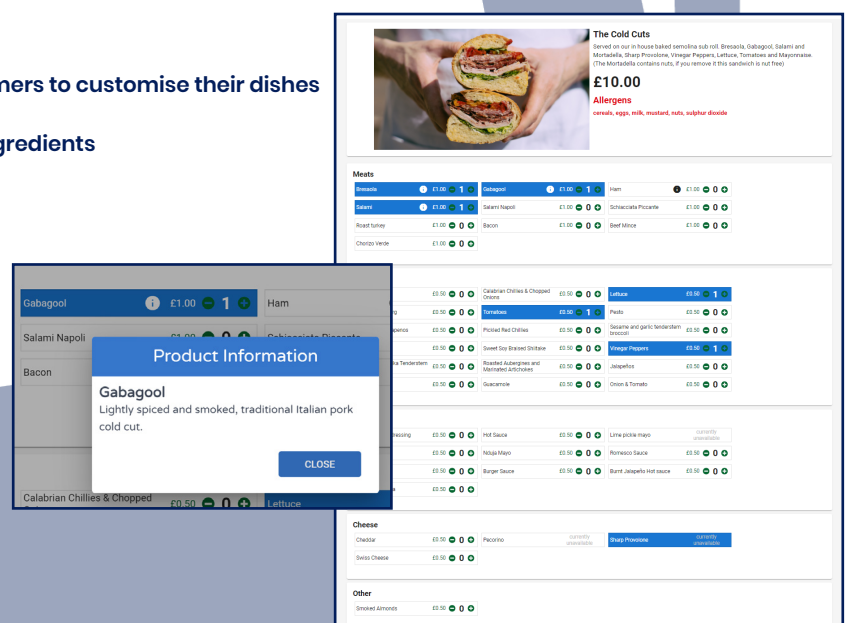

Allergy Information

- Clearly display allergy information for each item allowing your customers to order from you with confidence

Enhanced product information

- Group your modifiers, making it easy for customers to customise their dishes
- Clearly display default recipe for each dish
- Add descriptions and allergens to individual ingredients

Customisable Branding

- Images and colours of your brand on your site

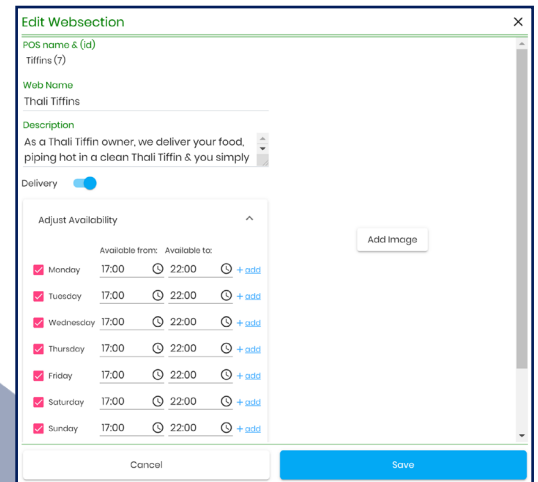

Andromeda Portal

Use the Andromeda Portal to manage your website

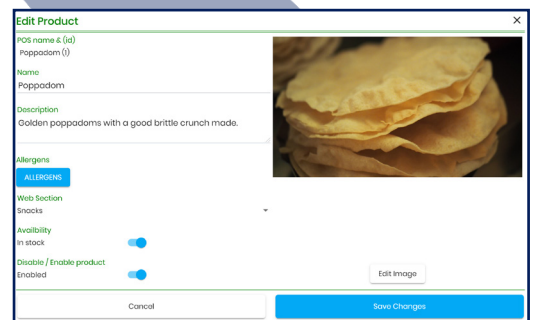

Edit Availability

- Ability to set different section availability to specific days, hours or occasions
- Want one section only available for collections, or just in the evenings? No problem

Customise Product Details

- Change the name, description & photo for all products
- Update your allergens
- Set items out of stock easily when you sell out

Plus:

- Manage your own delivery areas
- Set different charges by postcode
- Control your order flow with time slots
- Use deals, vouchers & loyalty to build customer loyalty
- Benefit from our marketing team and promote your business
- Google Analytics on all sites to track your visitors and analyse each marketing campaign you run

And with more great features being added every week, there has never been an easier and more effective way to offer your own Online Ordering Website

Your Menu – Your Brand – Your Customers
